PRISONER MAKES ESCAPE FROM JAIL

John Oswald, Arrested Here for Forgery, Saws Bar in Jennings County Institution.

SENTENCED TO REFORMATORY

Sheriff Bridges Expected to Take Prisoner to Jeffersonville Today to Begin Term.

Police officers and sheriffs of Jackson, Jennings and adjoining counties today are trying to locate John Oswald, of this city, who Monday night escaped from the Jennings county jail where he was held pending his transfer to the Indiana Reformatory at Jeffersonville to which he was sentenced for a term of from two to fourteen years. He pleaded guilty in the Jennings circuit court Monday when sentence was imposed. Arrangements were being made to take him to Jeffersonville today.

Oswald was arrested in this city October 30 for forgery. He is alleged to have forged the name of Theodore Steinkamp to several checks which were cashed by North Vernon merchants. While in jail here Oswald said that he forged the paper to secure money so that his sweetheart could take a trip to Chicago. He said he expected to follow her in a few days and had made arrangements to be married there. While in this city he was employed as a chef in local restaurants. He said he had been in the dining car service on several railroads prior to coming here.

The discovery of Oswald's jail delivery was made by Sheriff C. V. Bridges early this morning. The local police received a telephone message about 4:30 o'clock this morning to watch for him. Sheriff Bridges came here today thinking that he might get some trace of the escaped prisoner.

Oswald made his escape by sawing an iron bar in the outside window of the jail. He was not kept in a cell, according to officials at North Vernon but was given the liberty of the corridor. An examination of the bar which was bent back showed that it had been sawed in two some time ago and the crevice had been filled with soap and blackened so that the attendants of the jail would not notice it. It is believed that Oswald sawed the bar several days ago and had planned his escape before he pleaded guilty.

Sheriff Bridges and others who have made an examination feel assured that Oswald was aided by outside parties. It is possible that other arrests may follow as a result of the delivery. Oswald has been visited by one or two people during his confinement in the jail and it is probably that one of them brought him the saw.

When it was discovered that the prisoner had escaped telephone messages were sent to police officers and sheriffs in this vicinity to watch for him. Late this afternoon, however, nothing had been learned of his whereabouts.

LOCAL STORES CROWDED WITH CHRISTMAS SHOPPERS

Business in All Lines Has Been Unusually Good—Excellent Stocks Appreciated.

Local merchants are in the midst of the Christmas shopping season and the stores are crowded from early morning until the closing hour. As a rule the stores report that the "early shopping" slogan was more generally followed this year than ever before and at many of the shops purchases were made early in the month and the parcels laid away for later delivery. Many of the customers are now calling for their packages so they will have them in plenty of time.

The merchants are well pleased with the holiday trade this year, and the patrons of the local stores are likewise greatly pleased with the excellent lines that are shown here. The dealers have taken pride in selecting their Christmas stocks which surpass any ever seen here. In every line there are many novelties such as are desired by the holiday shoppers. The merchants are preparing for a great rush every day this week and it is believed that Friday will find an unusually heavy trade. The weather this week has been ideal for trading and hundreds of people living in various sections of the county have driven to the city.

LOCAL MAN FINED \$1 AND COST FOR THEFT OF COAL

Southeastern Line Patrolman Said J. F. Kinworthy Was Sacking It in a Car.

J. Francis Kinworthy, of this city, was arrested last night and jailed on the charge of stealing coal from a car on the Southeastern siding, near the round house. The arrest was made by Patrolman D. C. Colewell. Kinworthy pleaded guilty before Mayor Ross today and was fined \$1 and costs.

The Southeastern Line, it is reported, has lost heavily during the winter from the theft of coal from cars and has detailed several patrolmen to travel along the road and watch for persons taking it. Kinworthy, according to the testimony, was sacking the coal.

SEYMOUR COMPANY I. N. G. RANKS AMONG THE BEST

Given One of the Highest Ratings in Second Infantry in Report of War Department.

That the Seymour Company of National Guards ranks well with other companies in Indiana, although many are much older, is shown by the report of the war department issued Monday. As a result of the recent inspection the local company is rated as "good" and is one of the two companies in the second infantry to receive that rating. The others were ranked as "fair" or "poor."

The rating given the local company is most encouraging and is a compliment to Captain Oscar Abel and the members. Capt. Abel has drilled his men regularly and at the recent inspection by an army officer the company was highly commended.

COMMISSION MAY HEAR LOCAL CASE

Council and Interstate Company Unable to Agree on New Electric Rates.

NEW PROPOSITION REJECTED

City Officials State They Have No Intention of Considering Terms of Compromising.

Consideration of the controversy between the city and the Interstate Public Service Company relative to a readjustment of the rates for electric service will be given by the board of public works at the regular meeting tonight. It is expected that the policy to be followed by the city in the future will be finally determined so as to prevent further delays.

Chester P. Wilson, president of the Interstate Company, and Frank P. Smith, a representative, held a long conference with Mayor Ross and the members of the utility committee of the council Monday afternoon but no agreement was reached. Mr. Wilson first conferred with Mayor Ross and later the latter called on Councilman Andrews, chairman of the utility committee, and Steinwedel and Ahlbrand, members.

Mr. Wilson stated that he and other officers of the company had computed the net revenue of the local plant upon the rates proposed by the city, and that they would not be sufficient to allow the payment of the dividends permitted by the Indiana Public Service Commission. After he had presented his figures, Mayor Ross and the members of the committee went over the figures in their possession to show that the rates offered by the city were fair and that a reasonable dividend could be paid on the actual investment.

The company's officials offered another compromise which was about

SPAIN ENTERS AMERICAN MARKET FOR MUNITIONS

Military Commission in United States Since February Rounding up Huge Orders.

By United Press.

New York, December 21.—Spain has entered the American market to buy \$20,000,000 worth of war munitions and machinery to equip the Spanish munition plants. Francisco Salas, Spanish consul-general in New York, admitted to the United Press today that a commission of five military officers has been in the United States since last February engaged in rounding up huge orders of military supplies.

Four hundred million cartridges and shells already have been ordered for the earliest possible delivery, Consul Salas said. Many rifles and field guns of various types will be required but no orders have yet been placed for arms as American manufacturers have boosted prices to exorbitant figures in their dealings with belligerents.

SPAIN MAY GET IN WAR ON SIDE OF TEUTONS

Rumored That Entire Army is to be Re-equipped With Remingtons Instead of Mausers.

By J. W. T. Mason, Written for the United Press.)

New York, December 21.—Spain may be preparing to enter the war on the side of the Teutonic allies for the purpose of retaking Gibraltar from the British and annexing Portugal to the Spanish Kingdom.

Rumors from Gibraltar that the army is to be re-equipped with Remingtons in place of Mausers coincide with New York reports that Spain has deposited \$20,000,000 with which to purchase war supplies from American firms. The two statements coming from independent sources tend to confirm each other. They indicate the possibility that the war may spread from southeastern to southwestern Europe if Spain is allowed to receive the supplies she orders in the United States.

PRESIDENT NOT ANXIOUS TO GET ON "THE SCREEN"

Movie Men Pack Cameras and Depart When Their Last Plea is Rejected.

By United Press.

Hot Springs, Va., December 21.—The president and Mrs. Wilson brave curious crowds and went for a little walk here this afternoon. The president was garbed in a dark suit and carried a cane. Mrs. Wilson wore a dark blue walking suit.

Movie men packed their cameras and departed this afternoon when the president rejected their final plea for "just one change for a film."

NEW RECRUITING BILL INTRODUCED

Premier Asquith Presents Measure Calling One Million Additional Men to Colors.

BRINGS TOTAL UP TO 4,000,000

Prime Minister Also Announces Important Changes in British General Staff.

By United Press.

London, December 21.—Premier Asquith today introduced in parliament the government's bill calling to the colors one million additional troops bringing the number of British men now in service up to about four million.

Changes in the British general staff were also announced. Sir William Robertson, chief of staff in France, has been recalled to succeed Sir A. J. Murray, as chief of the general staff. Premier Asquith informed commons. Murray, he stated, "is proceeding to an important command." It is the general belief that the deposed chief of the general staff is about to leave for Egypt to take charge of British defenses there.

Another important statement of the prime minister was that dealing with the withdrawal of British troops from the west coast of the Gallipoli peninsula. This course, he said, was advised by both Lord Kitchener and General Monro after a careful investigation of the situation.

Without giving figures of the total enlistment the premier praised the recruiting campaign of Lord Derby. He declared one of its chief results was to afford a "strenuous exhibition of patriotism." He did not touch directly upon the conscription issue.

40-FOOT WATER STAGE REPORTED AT EVANSVILLE

Should Ohio River Rise Three Feet More 500 People Would be Left Homeless.

By United Press

Evansville, Ind., December 21.—The Ohio River reached the forty-foot stage today. The river was rising slower, however, and rivermen said the general outlook was more encouraging. Although there is no danger until the water reached the 43-foot stage many families on the Kentucky side are moving out. If this stage should be reached five hundred people between Newberg and Shawneetown, Ill., would be homeless.

VOSS-BOXMAN

Quantities of Christmas greenery and white roses and chrysanthemums formed an attractive setting for the wedding which took place Sunday at the home of Mr. and Mrs. Henry Boxman on White creek. The bride was their daughter, Miss Lydia Louise Boxman, and the bridegroom was William Voss.

The ceremony was pronounced at 2 o'clock by the Rev. W. J. Baumgart, pastor of the White Creek German Lutheran church, in the presence of seventy relatives and intimate friends. The young couple was attended by Miss Clara Boxman, sister of the bride, and William Schlehueser.

The bride wore a dainty white robe with a long tulle wedding veil and she carried an arm bouquet of bride's roses. Miss Clara Boxman wore pink and carried pink carnations.

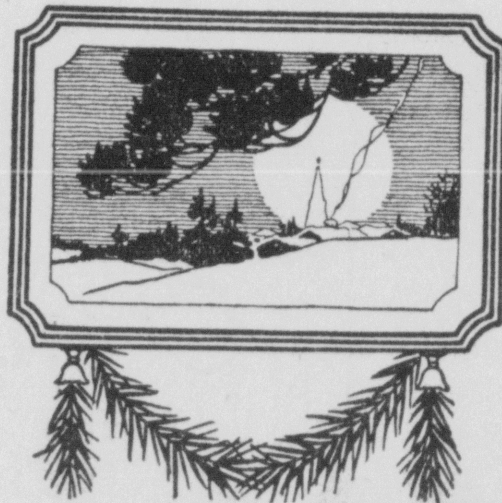

After congratulations an elaborate wedding dinner was served. The newly wedded couple was given a charivari last night at the home of her parents, by more than a hundred of their friends and neighbors. Mr. Voss is a farmer and he and his bride will reside on a farm in the White creek neighborhood. Both are popular young people and members of prominent families.—Columbus Republican.

GREAT CROWD WILL HEAR THE PROGRAM

First Municipal Christmas Entertainment in This City Will be Held Tonight.

SANTA CLAUS TO BE PRESENT

Tree Lighted With Hundreds of Globes and Trimmed With Tinsel and Popcorn is Beautiful.

"A marvel of splendor and beauty" that is the substance of the comments that have been heard today about the Municipal Christmas Tree on West Second Street between Chestnut and Walnut streets. Final touches were put on the tree and the platform by the decorating committee this afternoon and it is announced that everything will be in readiness for the entertainment tonight, which is the first of the kind ever held in this city.

The program will begin at 7:30 o'clock. Following the entertainment the "treat" of candy and fruit will be distributed to the children. Santa Claus will be there and although there is no snow on the ground, it is announced he will arrive in his sleigh, pulled by two snow-white horses. Of course, the modern Santa Claus makes his annual rounds in a new model automobile, but the committee here decided to carry out the old custom even though the ground is not covered with snow.

It is expected that a great crowd of men, women and children will hear the entertainment. The tree has already attracted wide attention and children of the city and neighboring counties are showing intense interest in the entertainment tonight.

The electricians completed most of their work late yesterday afternoon and shortly after dark the current was turned on to test out the lights, which were left burning until a late hour. Hundreds of variously colored

globes are used in the decorations and the tree presents an appearance of remarkable beauty. The decorating committee began work early this morning and artistically arranged many yards of tinsel and popcorn through the branches. The stage is also covered with white cloth upon which many feet of greenery are festooned.

The tree as it will appear tonight represents a vast amount of planning and labor. The members of the committee have devoted hours of thought and work to it at a time when their own business called for special attention.

It is announced that a movie man will take the picture of the tree tomorrow and that the school children will be permitted to get "in the reel." The tree is unusually not only because of its size but for its beautiful decorations and when a motion picture concern heard of the elaborate arrangements by the local committee it sent a representative here to arrange for a "special."

O. H. Montgomery, Judge O. O. Swails, Harlan Montgomery and O. B. Abel went to Brownstown today.

HOLIDAY RUSH CONTINUES AT THE LOCAL POSTOFFICE

Outgoing Mail Increases Daily and Taxes Capacity of Force—Express Company Busy.

The local postoffice in the role of Santa Claus is having the busiest week of the entire year. Each incoming train brings many sacks of additional mail to be handled by the local force. The rural carriers start on their routes with their wagons completely filled with packages and letters. The city carriers can hardly be seen from among the packages which are carried in their arms and hung over their shoulders.

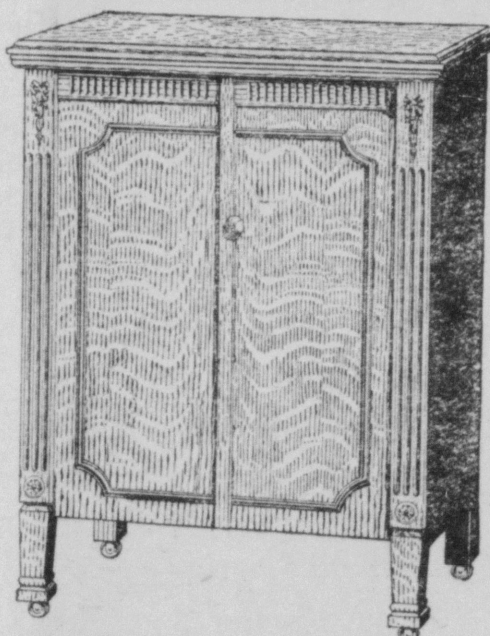

In order to handle the vast amount of incoming and outgoing mail a most

efficient system must be used in the office. Postmaster Swope is endeavoring to deliver the packages promptly and the auto delivery service in charge of Don Hoover is working overtime this week. The rush is expected to continue until after Christmas. There are always some packages delayed in reaching the postoffice and cannot be delivered until after Christmas day.

The express companies, too, are coming on for their share of the Christmas business. The delivery wagons are piled high with parcels and boxes, most of them marked "Fragile" or "Breakable."

W. P. Masters and Merrill Montgomery went to Peru this morning on a business trip.

ANOTHER CHAPTER CLOSED.
Another chapter of the great European war has closed. The British troops have been withdrawn from the Dardanelles after an unsuccessful campaign to wrest that important

point from the Turks. The withdrawal was accomplished skillfully. The plans were not made public for reasons that are obvious. Had the defenders of the Straits known in advanced that the troops were to be placed aboard the waiting transports they could have arranged to shower shells upon the small boats and the slaughter of life would have been terrific.
The Dardanelles campaign was a complete failure. The outcome cost one prominent English officer his position. The attempt was made as a gamble of war. If the Allies could have taken the Straits the effect would have been tremendous. The great Russian wheat crop would have been thrown upon the European markets and the Teutonic allies would have been greatly handicapped in future campaigns.

Before the first warship had landed at the Dardanelles military and navy authorities protested as they believed that the task was impossible. At some points the Straits are so narrow that the human voice will carry from one side to the other. Concealed along the Straits are great, powerful guns which can be trained upon the enemy's ships at close range. Because of mines which are easily operated in the narrow channel it is next to impossible for a ship to pass the fortifications.
Early in the war the Dardanelles were fortified by crude guns, but when it became known that the allies would attempt to take it cannon of the newest types were hastily put into use. The campaign was one continuous fight of a modern war equipment against a modern naval equipment. The loss of life has been heavy. Contradictory figures have been given out by both sides and the public may never learn the human toll that was paid for the unsuccessful venture. The failure to take the Dardanelles has been a terrible blow to England's navy. It has proved that it is not invulnerable.
The Dardanelles campaign was hope against hope as is summarized in the following paragraph taken from a London newspaper:
"Thus ends the enterprise on which the highest hopes were built, and which, if it had succeeded, would probably have turned the tide of the war. Our troops from the first to last were within a few miles of victory."
It appears certain the Indiana Republicans will place the name of Charles Warren Fairbanks on the ticket for the nomination for president of the United States in the coming primaries. Mr. Fairbanks has been a prominent figure in public life for a number of years and his views on questions pertaining to international and internal affairs of this country are given serious consideration. As a public official he was a leader, not only of the Republican party but of the entire nation. His activities were directed for the best interests of the United States. He represented all parties and all the people. The opposition recognizes in him a man of ability, a statesman and a patriotic American citizen.
And while we are enjoying the Municipal Christmas entertainment

Your Credit is Good At **HOOVER'S** THE "LIVE" ONES'

tonight let us remember that many children who attend will return to cold, dismal homes where they will come face to face with an empty cupboard and a darkened stove. Some of them may leave their little homes tomorrow morning without the food that is required to sustain their frail bodies from the winter cold; some of them may venture out without enough clothing to keep them warm; some of them will dread to see Christmas morn arrive. It is not a pleasant picture but one that actually exists here.

Mrs. Woodrow Wilson is learning to adapt herself to her new surroundings. She has even taken up golf just because her husband likes to play the game.

Mr. Henry Ford said he would "get the men out of the trenches by Christmas." It now appears that he probably meant by Christmas 1916.

GAME WARDENS TO ENFORCE LAW DURING CLOSED SEASON

Monday Was Last Day for Hunting Quail—Reported That Birds Were Scarce This Fall.

With the closing Monday of the open season for hunting quail, game wardens will be on the alert for hunters who refuse to cease activities in accordance with the state law. It is stated that the wardens will be especially watchful now and will prosecute all violators.

Hunters are not particularly pleased with the result of the season's hunt and declare that the birds are scarce. Some say that the winters

are exceptionally hard on the quail and that hundreds die annually from cold and starvation. Other local hunters, however, say they secured the number allowed by law each day they went into the field. Rabbits are plentiful according to the reports.

TISZA SNEERS AT TROUBLE WITH U.S.

"Iron Man" of Dual Monarchy Says
There is Little Likelihood if
Washington Keeps Cool.

INTERVIEW WITH UNITED PRESS

Count Had Just Returned to Budapest After Conference With
Emperor Franz Joseph.

(By Karl H. Ackerman, United Press Correspondent.)

Berlin, December 21—There will be no quarrel between Austria-Hungary and the United States if Washington keeps cool.

Count Stephen Tisza, next to Emperor Franz Joseph the strongest man in the dual monarchy, gave the United Press this assurance in an interview in the ministerial palace at Budapest. The interview was obtained after a week's visit at Vienna and Budapest to ascertain sentiment regarding the Ancona note.

"To think of trouble between Austria-Hungary and the United States—sheer nonsense!" declares the "iron man" of the monarchy emphatically. Count Tisza had just returned from a conference with the emperor regarding the Ancona note.

GREEK GUNNERS SAID TO HAVE FIRED ON FRENCH

Detachment Faced Rain of Shells
When it Failed to Halt on
Sentry's Call.

By United Press.

Berlin, December 21—Greek gunners in Fort Karaburna dominating Salonika opened fire on a French detachment which failed to halt on a sentry's call, according to dispatches today to the Frankfurter Zeitung. The French fled.

The Greeks continue to hold the fort, the correspondent stated in spite of repeated French requests that it be turned over to the allies. The dispatches confirm reports that the French have withdrawn most of their troops.

HENRY FORD'S ILLNESS MAY TERMINATE SERIOUSLY

Promoter of Peace Party Confined
to His Bed and Members Remain at Christiania.

(By Charles P. Stewart, United Press Correspondent.)

Christiania, December 21—Henry Ford, who insisted yesterday that his illness was only slight, was in bed today and it is believed possible that the attack may be serious. During Ford's illness the peace party will remain in Christiania. In the past twenty-four hours Norwegian sentiment as to the peace party has veered in favor of Ford. The newspapers today described him as of admirable personality, but continued to "jost" the delegates.

Notice to Contractors.

State of Indiana, Jackson county, ss:

Notice is hereby given that the board of commissioners of said county, at their office in the court house at Brownstown, Indiana, will receive sealed proposals on form 10, prescribed by the State Board of Accounts, for the following in accordance with the specifications, plans and profile now on file in the office of the auditor of said county, by and under the laws of the State of Indiana:

For a Piling Timber Dyke at the South Bank of White River near the Medora River Bridge.

Said sealed proposals will be opened and the contract awarded for said improvement on the 3rd day of January, 1916, at 1:30 p. m.

Bids shall include all labor and material for said work. In no case will extra compensation be allowed for any additional work alleged to have been done by the contractor or contractors to whom is awarded the contract.

Each bid shall be accompanied by a personal or surety bond in a sum equal to the amount of the bid filed for the work bid on, to be approved by the board of commissioners of said county. Said bond shall be conditioned for the faithful performance of the work; the sureties, if personal, shall be resident freeholders of the State of Indiana, one of whom shall be a resident of Jackson county.

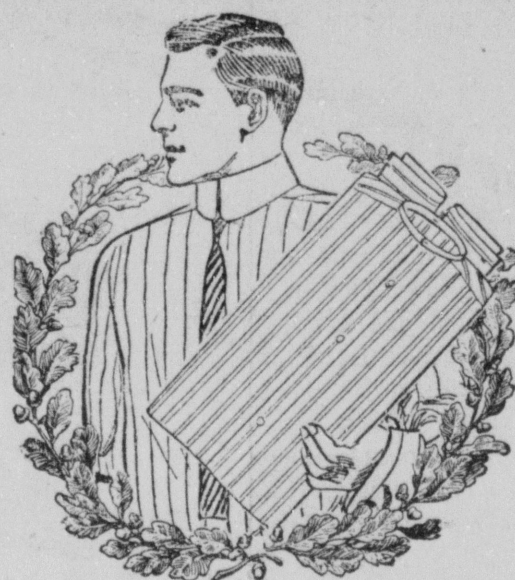

Said improvement will be let to the lowest responsible bidder upon affidavit of noncollusion, which must be submitted with the bid, and upon failure to submit such affidavit such proposal or bid will be rejected by the board; and the board reserves the right to reject any and all bids. Time for the completion of said work will be agreed upon after the letting of said contract by said board of commissioners and successful bidder.

Given by order of the Board of Commissioners of said County.

MORGAN CROSSES THE OHIO. Louisville, looked upon as Morgan's objective point, put itself in preparation for defense. But the gallant confederate had other plans. Through his orders restricted his operations to Kentucky he convinced the bold scheme of carrying the war into the North itself. He thus turned south of Louisville, to Brandenburg where after a little opposition from Indiana troops and from a federal gun boat, he crossed the Ohio river with his troops on July 8.

MILITARY TRAINING TAKEN UP BY TRUSTEES

"Preparedness" Plan May be Adopted by Wabash College Board.

By United Press
Crawfordsville, Dec. 21.—Military training for college men as a step toward national preparedness was at issue to-day when the board of trustees of Wabash college went into executive session at 10 a. m. It was to discuss and possibly act on the report of its sub-committee which favored a four year course in military science compulsory for all students.

The prevailing impression was that the board would agree either to establish the course or to take some step toward learning more definitely from the war department, and elsewhere, what aid the college would get in case such a step were decided upon.

Although President Milligan of the board was known to believe the plan impracticable, the large majority of the board favored it, and in this number was President Mackintosh of the college. Mackintosh does not have a vote except in case of a deadlock.

It was known that two of the

three ministers on the Presbyterian board favored the movement toward preparedness. One of them, the Rev. Owen D. Odell, of Indianapolis stated that he believed colleges like Wabash would be able to supply the big demand for officers. "Men can be had easily," said Odell, "but officers can't be mustered in and trained over night."

Vice-President Marshall, one of the committee returning the favorable report, was not present, being in Washington, but the board understood his views and was prepared to cast his vote "for preparedness."

It was considered possible that a decision would be reached by mid-afternoon. One of the men who attended and whose views were unknown was Judge A. B. Anderson of the U. S. court for the Indiana district.

Why You Should Use Chamberlain's Cough Remedy.

Because it has an established reputation won by its good works.

Because it is most esteemed by those who have used it for many years, as occasion required, and are best acquainted with its good qualities.

Because it loosens and relieves a cold and aids nature in restoring the system to a healthy condition.

Because it does not contain opium or any other narcotic.

Because it is within the reach of all. It only costs a quarter. Obtainable everywhere.

Pyorrhea—the disease nearly everybody has

No matter how sound your teeth may seem to be, no matter how you may scoff at the idea of your having this disease, it is a positive fact that the germ which causes it is working now in your teeth.

The appalling discovery of this fact—that the germ which causes pyorrhea is one which inhabits every human mouth—was made over a year ago. Since then dentists have been urging everyone to take special precautions in their daily toilet to prevent this disease from developing in its acute form of bleeding gums, tenderness in chewing and loose teeth.

To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the

public in the convenient form of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentanel Remedies Co., 505 Union Central Bldg., Cincinnati, Ohio.

SOME INDIANA PEOPLE GET QUICK RELIEF

Hundreds of Indiana people have found relief from stomach and digestive troubles by the use of Mayr's Wonderful Remedy.

This remedy is safe and efficient. The first dose gives results. And the treatment is not long. It has a wonderful record.

Here are the statements of two who have used and proven the merits of the remedy:

CHARLES INMAN, 424 East Chestnut St., Hartford City, Ind.—"Four doctors said they could not cure me unless I went to Fort Wayne to be operated on. I took your treatment. In three weeks I went to work and haven't missed but a half day since."

WALTER SPRAY, 1011 South Second St., Frankfort, Ind.—"Before I took your medicine I suffered a great deal, but since I took the first dose I have not had a bad spell. I feel it is even more than you claim."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Republican Want Ads. Get Results.

Letter from Florida.

Joseph Cartwright who has many old acquaintances in Jackson and Washington counties, writes an interesting letter of his present home at St. Cloud, Florida. He says:

St. Cloud, Florida, 1-17-15.

Editor Republican:

I thought a letter from here might be of some interest to a few of your readers. I have been here but seven weeks, hence have not learned all about conditions yet. The climate seems much like California, where I was a month in Sept. and October. But California has developed a hundred times more than this. Land in California is more than a hundred times higher than here. This is a pretty country indeed, as nearly level as I ever saw. The soil is very light, mostly sand covered with grass, trees, palmetto, etc. in its wild state Oranges, grape fruit, sweet potatoes, and melons seem to do well here and most people in this "old soldier city" have very pretty yards, gardens and truck patches. Most of them fertilize and sprinkle freely. The climate seems fine and regular enough to please most anybody. But no one raises crops common in the north.

If one has property and cares for fine weather and flowers the year round, where winter is the finest of the year, and wants to live with soldiers of the war of 1861 to 1865 this is the place. I have seen frost but once this winter. It cut beans, tomatoes and sweet potatoes in some gardens; but Lou Harrod from Crothersville, says his garden is not hurt in the least, he thinks. He has two lots covered with fruits and garden truck; and he and his wife are more than pleased with five years' life here.

This city contains about 2,500 or 3,000 people I think. Six or seven churches, many hotels. About twenty to thirty brick and cement buildings. Ten or twelve grocery stores and others in proportion. It is growing right along, making solid roads. It is an up-to-date city in sanitary and many ways. It has a "Woman's Improvement Club," in which the wives and mothers discuss all kinds of practical affairs, not only talks, but it does things well. For instance it has now on hands (\$658.00.) Six hundred and fifty-eight dollars which will soon be applied on a new library or building for it. It is marvelous what a few women can do when they once get at it with determination. Belva Lockwood, who once made the race for President of the United States is here to spend the winter with friends.

About 200 to 400 old soldiers meet in their big brick hall each Saturday from 2 p. m. to 4 p. m. and have fine meetings, martial and piano music. A literary program, and short talks from all "new comers" and old ones returned "Home."

The hard kicker who abounds everywhere is here and I might cite a sample or two. One of them said to me the other day, "Oh, you can't raise oranges here worth a cent." In five minutes a man called out, oranges 10c a dozen and offered to bet six of them would fill a quart cup with juice. The kicker said, "You can fish a month here before you catch a mess." Then two boys

in a wagon called out, "Fresh catfish, well dressed 10c a lb." Fire wood is cheap and plentiful. Flour, eggs, butter, ect. high, but most things are cheap. It is easy to grow two crops of Irish potatoes, beans, peas, lettuce in a year.

St. Cloud has a successful newspaper and its editor is a successful orange grower as well.

While it is, as a rule, much easier to make our places better than it is to find a better place, I believe these fine level plains will be settled in a few decades. For I have seen in Arizona, Colorado, Idaho, Utah and in various states for worse looking lands being subdued and brought into cultivation. I think there are from 50 to 100 families in this city from Indiana, and more from Ohio, Pennsylvania and New York. I expect to pass through good old Indiana during 1916 and hope to see old time friends in Jackson and Washington counties.

With regards to all, I am respectfully,

Jos. Cartwright,

M. L. Weekly Writes.

M. L. Weekly, who formerly lived in this county writes an interesting letter concerning his present home at Yuma, Col. He says:

To Seymour Republican:

I am sending you a check to renew my paper and at the same time will write a few lines.

We are having a little taste of winter now. There are about three inches of snow on the ground, but it is not cold. People are not near through gathering corn yet. There isn't any help that you can get, for everybody has work of their own. Corn is good, making from thirty to forty bushels per acre. Wheat was good, making twenty to thirty bushels, some made fifty bushels. Oats made thirty bushels. Potatoes are good. One of my neighbors raised and shipped five car loads of potatoes. So you see that this country will produce crops on a paying basis. Land is advancing in price all the time. Lots of men are farming with traction engines.

There are several Indiana folks here now, and I would like to see a lot more of them coming. We have a beautiful little city, full of business. There has been sixty or more houses built in Yuma this summer,

and still they are building. The city is lighted with electric lights. We can see the lights from here, twenty miles away. So you see we are coming to the front. Nearly everybody who can afford it has an automobile, and those who can't afford one—well they get a Ford and go too.

Well, you send the Republican till I tell you to stop it. It is a grand old paper.

Yours truly,
M. L. Weekly.

Colorado Farms

Crop Payemnt Plan
One Crop Makes All Payments

You should buy a farm in Eastern Colorado, where no irrigation is necessary to produce same crops now grown in Iowa, Indiana or Illinois, with average acre yields just as great as those obtained in those states and you can make all deferred payments to us out of the crops produced upon the land. You may live on the land and plant the crops yourself or pay us to do the work for you. We will take all of one crop of winter wheat or half of two in full for all payments and deliver you the warranty deed. At time of entering into purchase contract you must pay us one-third of total purchase price of the land. Farms are situated from one to sixteen miles from railroads and towns. Price depends on location. Land is all level or gently rolling fertile prairie. No stones, stumps or swamps. Crops can be planted day new prairie is plowed. Some improved farms for sale. Fine climate, low taxes. Good roads. Cheap fuel and lumber. Best domestic water. Good neighbors and markets. Prices from \$12.00 to \$25.00 per acre. One crop pays for land.

Germany's "crushing Russian victory" claim was exploded. The allies' western drive was checked by the Kaiser's men. The French chamber of Deputies met in Paris for the first time since last August. Admiral von Tirpitz said German submarines might blockade England and starve her into submission.

COMMISSION MAY HEAR LOCAL CASE

(Continued from first page)

.0185 higher than the rates submitted by the council. The city's representatives were not inclined to accept them and some of the members made their position clear.

J. H. Andrews stated today that he doubted if the city and the company would be able to agree on terms. He thought there was too much difference between them and said that unless the company came to the city's terms he was in favor of taking the case before the commission and have the rates fixed once for all after the appraisalment is made.

Mayor Ross is firmly of the opinion that the city should "standpat" on its proposition. He is not favorable to any compromise other than the one that has been offered. He presented figures Monday afternoon to Mr. Wilson and Mr. Smith to show that the city's contention was fair and just according to estimates made by City Engineer Rights and himself. The company is desirous of making a difference in price between the commercial and domestic service while the city insists that the basis of charge ought to be the same. The city takes the position that the minimum meter charge of fifty cents as demanded, is high enough to guarantee the company its operating expenses for the small consumer. Mayor Ross and the council are both determined that the rates shall be fair to the small user of electricity as well as to the big consumer.

As the matter now stands little progress has been made towards reaching an adjustment. Mr. Wilson before he departed Monday afternoon said his company would look over their figures again and would take up every phase of the proposition in the near future. The city officials are desirous that the matter be settled immediately and if a compromise is impossible they want to prepare to take the case before the commission.

A Timely and Fitting Suggestion

Christmas is only a few days away. Once again the annual eternal question of "what to give" stares you in the face. You desperately think of this, that and the other thing, yet you can decide on nothing that will particularly please the whole family.

You do not want to give the average expected gift. On the

contrary, you are only too anxious to do something out of the ordinary—if you could but think of it.

So here's a thought. Give them a fine, big, useful and beautiful Overland Six! Present it yourself Christmas morning. Don't tell a soul. Just drive up to the house on the quiet; call them all out; point to the dandy new Overland

and say: "It's yours!" Then watch their loving faces light up with joy and delight. It will, without question, be the best Christmas, by far, of their entire life!

Besides the Overland Six there are two four-cylinder Overlands—the graceful, light and economical Model 75 at \$615 and the larger Model 83 at \$750. Roadsters

are \$595 and \$725, respectively.

The Willys-Knight, with its quiet sleeve-valve motor, comes in four styles—the Touring Car at \$1095; Roadster at \$1065; Coupe at \$1500 and Limousine at \$1750. All cars are priced f. o. b. Toledo.

It will not obligate you in any way to learn more about any or all of them. Call, telephone or write us.

CHRISTMAS PARTY.

Mrs. Scott Everhart was hostess to the members of the Loyal Devoir Society Monday evening at a delightful Christmas party. In the living room was a beautiful tree lighted with a number of electric lights in red, white and green colors and many ornaments. It yielded a gift to every member. The Christmas colors of red and green were used in all of the rooms. An impromptu program was given consisting of solos, recitations and talks and debates. During the evening dainty refreshments were served.

DRAMATIC CLUB.

At the meeting of the Dramatic Club held last evening at the Conservatory of Music, plans for the future activities of the club were discussed. It is possible that the cast which recently produced "Mary Jane's Pa" here will give the production at North Vernon shortly after the holidays. It may also be produced at

the high school gymnasium here at a later date. The next production of the club has not yet been decided upon, but will be in the near future.

Baptist S. S. Entertainment.

The Baptist Sunday School will give their Christmas entertainment Thursday evening at 7:30 o'clock. The program will be the cantata "The Heart of the Bells." Gifts of provisions for the children of the Crawford home will be received to make up a Christmas box, and a free will offering in cash will be received at the door toward the expense of the entertainment. On Friday afternoon at 2:30 the primary department will hold the annual Christmas party. All are invited to both these entertainments. d23d

ADVERTISING AND PRICE

Who pays the price of advertising is a much discussed question.

Listen to what Jules B. Schloss has to say in Newspaperdom.

"Good advertising creates a passive expense which is overbalanced by the decreased cost of production or selling—and it reduces the price of the commodity to the consumer."

"Poor advertising remains an active expense, which must be added to the price of the commodity, because it does not proportionately increase the sales—poor advertising increases, instead of decreases, the cost of production and selling! Consequently, it raises the cost of living. When advertising is run in media to which it is not suited, it is decidedly poor advertising, and it will not bring the necessary results."

And because they produce results at low cost the newspapers are today the most favored of all advertising mediums.
